

Sandbox Software and Early Childhood Development Association of PEI Partnership and Special Promotion

Managing your child care business has never been easier thanks to child care management technology that is affordable and saves you time

Sandbox Software is your all-in-one comprehensive child care management platform that provides integrated parent engagement and powerful business growth tools all in one app. Sandbox is built with educators in mind to automate and simplify manual tasks such as billing, maintaining child files, staff management, immunizations, daily communication with families and more. Find out why over 140,000 users and top-performing centers in North America use Sandbox to handle their day-to-day child care.

This is why Early Childhood Development Association of PEI and Sandbox Software have formed a partnership

Early Childhood Development Association of PEI would like to offer their members a special rate for Sandbox Software's child care management platform and services to help your child care organization thrive in 2023.
